

G5 Visitor App

Our Visitor App revolutionizes the way you manage visitors, offering a seamless, secure, and compliant check-in and check-out experience. Designed for efficiency, this app ensures a smooth process for both visitors and your organization.

Key Features:

Quick Check-In: Visitors enter details and check in effortlessly.

Integrated Camera: Capture photos for identification and security.

Easy Check-Out: Visitors log their departure with a single click.

Digital Records: All visitor information is securely stored for easy access.

User-Friendly Design: Simple and intuitive for hassle-free use.

Emergency Search: In case of emergency, search the visitor in the building.

Why Choose Our App?

Enhanced Security: Track visitor movements with a reliable digital system.

Time-Saving: Eliminate manual paperwork and save time.

Professional Touch: Impress visitors with a modern check-in experience.

Scalable Solution: Ideal for businesses of all sizes.

Compliance and Security

- Ensure logs are protected from unauthorized modification or deletion.
- If digital kiosks or self-check-in stations are used, limit access to only necessary functions.
- Implement log retention policies (e.g., retain logs for at least one year per **NIST recommendations**).
- Ensure physical visitor logs (if used) are stored securely.
- Log retention as per compliance requirements.
- Covering CMMC NIST and other compliance controls for visitor log.

Check In

How the Visitor App works!

Step 1: Enter Visitor Details

Visitors start by filling out their details in the form fields provided:

- Name, Email, Company Name, Purpose & Contact No.

Step 2: Photo Capture

- Integrated Camera: The app uses the device's camera to capture the visitor's image for identification and security purposes.

Step 3: Check-In

- Once the photo is taken, the visitor proceeds to the Check-In

Step 4: Check-Out

- After completing their visit, the visitor will Check-out using the app.
